

Pennsylvania Climate Leadership Academy

Live Online CC-P® Prep Series (Fall/Winter 2021)

Program Details

The Pennsylvania Climate Leadership Academy, in partnership with the Association of Climate Change Officers (ACCO), is offering a series of live online training programs to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training in a peer cohort environment that will prepare them for the [Certified Climate Change Professional® \(CC-P®\) credential](#) and [CC-P® Candidate](#) exams by leveraging a combination of video homework, live training and interactive exercises/discussions.

Participants will learn from experts and practitioners about the implications of climate change, and related opportunities. In addition to climate change and sustainability practitioners, the curriculum has been designed to benefit professionals worldwide across a broad range of occupations in the public and private sectors, higher education and the NGO community.

Key Skills and Competencies Addressed	Live Online Program Features
